Objective :

Telecommunications and Network Engineering student with project-based experience in network design, simulation, and AWS cloud deployment. Proficient in cloud services (EC2, VPC, IAM, S3), routing protocols, and network security fundamentals. Demonstrated ability to build and test resilient network architectures in academic environments. Passionate about infrastructure automation and eager to apply my technical skills and collaborative mindset to deliver innovative cloud solutions.

Education :

B.Sc. in Electronic Engineering (2027)

Faculty of Electronic Engineering, Menouf – Menoufia University
department of Telecommunications and Networks Engineering
GPA: 3.4

Certifications :

- **Network Infrastructure**
National Telecommunication Institute (NTI)
Duration: One month (July – August 2025)
- **CCNAv7 (Cisco Certified Network Associate)**
National Telecommunication Institute(NTI)
Duration: Two month (Mar – May 2026)
- **Red Hat System Administration I (RH124)**
from Maharatech

Experience :

AWS Cloud Security Trainee

Digital Egypt Pioneers Initiative (DEPI) | 2026 – Present

- Developing hands-on skills in AWS Cloud Security including IAM, EC2, VPC, and S3.
- Implementing cloud security best practices and AWS security services.
- Completing practical labs on AWS architecture, identity management, and network security.
- Gaining knowledge of cloud compliance, monitoring, and threat detection.

Projects :

- **Gas Detection Alarm System**
 - Built a sensor-based alarm system using Arduino and gas sensors, achieving 95% accuracy in detecting harmful gases with real-time alert activation.
- **Digital Voltmeter using PIC Microcontroller**
 - Developed a digital voltmeter using PIC16F877A and a voltage divider to measure DC voltage (0–30V) with $\pm 2\%$ accuracy, displaying readings on an LCD screen using (MicroC).

Technical Skills :

- Networking: Routing Protocols (OSPF, EIGRP, BGP), Switching (VLAN, STP)
- Cloud: AWS (EC2, VPC, IAM, S3)
- Automation: Terraform (Basic), CloudFormation (Basic)
- DevOps: CI/CD Fundamentals, Docker Basics
- Operating Systems: Linux (Basic Command Line)
- Programming: C++, Python , C (MicroC)
- Microcontrollers: PIC (PIC16F877A), Arduino
- Simulation Tools: Packet Tracer, Proteus, Multisim
- General: Microsoft Office Suite (Word, Excel, PowerPoint)

Personal Skills :

- Leadership & Teamwork
- Communication skills
- Problem solving

Languages :

- Arabic: Mother Tongue
- English: Good
